

Appendix A — Travel Documentation (Redacted)

This appendix contains redacted extracts from two outward passenger listings showing Subject A travelling from London to India in 1936 and again in 1938. Both journeys were undertaken under Surname A, and each record provides consistent information regarding his age, occupation, and country of residence at the time.

All identifying details (including name, initials, address, and reference numbers) have been redacted to protect privacy. These extracts are included to demonstrate the type of evidence used to confirm surname usage and establish Subject A's early adult movements.
