

Structured, Evidence-Based Genealogical Support for Solicitors

Professional, PRINCE2-aligned genealogical analysis for probate, estate administration, contentious matters and cases requiring clear interpretation of historical documentation.

Probate & Estate Administration

Clear, structured genealogical research to identify, verify and document heirs. Evidence-based reports suitable for estate distribution, intestacy cases and tracing missing beneficiaries.

Heir verification

Contentious Matters

Independent, PRINCE2-aligned analysis for disputes involving family relationships, lineage claims or historical documentation. Objective findings that support mediation, litigation strategy and evidential clarity.

Disputed lineage clarity

Historical Document Interpretation

Expert review of historical records, certificates, parish registers and archival materials. Concise explanations that translate complex genealogical evidence into solicitor-ready clarity.

Archival clarity

Professional Genealogical Support for Legal Teams

disputed family and
lineage cases

Tansom Heritage Group provides structured, evidence-based genealogical analysis for probate, estate administration and contentious matters. All work is delivered with audit discipline, transparent methodology and a defensible chain of evidence. Services include document retrieval and interpretation, heir and relationship verification, and complex identity resolution casework for situations involving conflicting or incomplete records.
